

### Dermapen Skin Needling

\$299

(SKIN MUST BE PREPPED WITH SUPPORTIVE HOME CARE)

Skin needling, also known as micro needling, produces micro wounds in the skin, stimulating your body to produce new collagen and elastin. The freshly produced collagen will rejuvenate your skin, resulting in an overall improvement in skin texture and firmness.

Dermapen successfully treats fine lines and wrinkles, stretch marks, scars, acne scarring, skin tone and texture, pigmentation, large pores, acne/congestion and skin laxity/loss of firmness. Prior to having your skin needling treatment, a skin consultation is necessary. In the consultation, we will discuss pre and post care and also what to expect when having your treatment.

### Dermapen Cryopen

\$99

Cryopen allows practitioners to remove unwanted lesions in as little as a few seconds. Delivering a precise jet of highly compressed liquefied nitrous oxide (N2O), Dermapen Cryo effortlessly removes benign imperfections including warts, skin tags and lentiginos.

## COSMETICS INJECTABLES

Cosmetic injections enhance your best features. Wrinkles and volume loss are a natural part of the ageing process—our skin gets thinner and our body decreases its production of natural collagen and elastin. You can prevent and reduce the effect of wrinkles with cosmetic injectables. Our injectors understand the science behind ageing, and with facial analysis can recommend a cosmetic injection treatment for a fresh you.

IT'S IN THE SKIN

**Many Faces Skin Consultation / 45min** **\$60 redeemable**  
Redeemable on any skin treatment had on the day or booked in advance.

Our extensive skin consultation will provide you with a thorough understanding of what is happening within your skin. The Dermagraph will take photographs of the underlying layers of your skin. You will be able to see your pigmentation, skin vascularity and your skin density. Your skin will be assessed under our woods lamp to determine oil flow and hydration levels. Your therapist will then be able to prescribe supportive homecare and a treatment program. You will also be provided with supplementation and nutritional recommendations to further enhance your results, in conjunction with a targeted treatment plan and customised skin care products.

## SKIN WORKOUTS

**Enzyme Facial Treatment** **\$75**

A gentle exfoliant mask that loosens and removes old skin cells that have gone through their cycle and conditions the skin without impairing the skin barrier. The result is smaller pores, more even skin tone, a preventative against comedones, millia and pustules and improved active absorption in the skin. With the influence of steam, the enzymes are activated to partially dissolve the unwanted cells. Your therapist will then select the appropriate actives to your skin condition before applying Terra Sana, a mineral rich clay mask with properties that embody the regenerating actives for deeper absorption effects.

**First Time Facial** **\$110**

If you are unsure as to which of our treatments best caters to your skin's needs, then the First Time Facial is for you. Your therapist will perform a skin consultation and discuss your treatment options to ensure the appropriate facial is performed. Your customised treatment may include:

- Steam
- Exfoliation
- Treatment Masks
- Topical Infusion
- Massage
- Extractions
- Clinical LED Light Therapy

**Custom Facial** **\$140**

After a skin consultation, your therapist will design a treatment incorporating three of the following elements to treat your skin concern. Select from:

- LED
- Pomegranate Peel
- Oxygenating Enzyme
- Oxygen Treatment
- Pumpkin Peel
- Enzyme Therapy Exfoliation
- Microdermabrasion
- Alginate Mask

**Advanced Custom Facial** **\$170**

Your therapist will design a facial incorporating three elements for our advanced custom treatment.

**Note:** Your skin may need to be prepped on supportive home care products for two weeks prior to treatment.

- Select from:
- Enzyme Therapy Exfoliation
  - Lactic Acid Peel
  - Microdermabrasion
  - LED
  - Vitamin Infusion
  - Alginate Mask
  - Salicylic Peel
  - Peptide Mask

**Mindfulness Signature Facial** **\$129**

A wholesome skin-mind experience created for skin health and mental wellbeing. An experience guaranteed to leave your skin glowing from within, your mind alive, and you empowered.

**Mindfulness Skin Bliss Facial Treatment** **\$189**

It's the creme de la creme facial experience, incorporating non invasive yet super effective protocols to support the ultimate skin journey, while empowering a healthy state of mind. Includes LED which helps cellular activity, creating collagen and elastin and reducing inflammation. This treatment also includes a pomegranate enzyme peel to enliven your skin. THE ultimate journey you deserve.

**Lymphatic Therapy Facial** **70 min** **\$145**

Lymphatic Therapy is a tightening mask designed to work with your circulatory system - an often overlooked, but vital component of optimal skin health. This organ system is responsible for removing waste via our lymphatics and nourishing our cells and tissue via our blood supply. These systems always work together, taking and giving, maintaining homeostasis.

When our blood circulates around our body, it provides nutrients (such as amino acids), water and oxygen to our cells and tissue. However during the capillary fluid exchange (where water, amino acids, and oxygen cross the capillary wall into the extracellular fluid), fluids don't travel very far into the surrounding tissue, and even less when there are roadblocks. Which is why there needs to be a 'clear road', free from debris, so that these nutrients can get to their targets. This is why lymphatic drainage is so important to the health of your skin! The circulatory system plays a key role in a holistic approach to skin health.

**Epidermal Levelling** **50 min** **\$125**

Epidermal Levelling is an effective clinical treatment that exfoliates your facial fuzz while removing the nasties from the surface of the skin. The glide of a gentle, surgical blade will decongest and resurface for the result of smooth, even and soft skin. We add on an oxygen mask or gentle peel and mask to maximise results.

**Non Surgical Face Lift** **\$160**

Ultra lift is muscle reactivation and cellular stimulation. This is achieved through electro muscle stimulation via controlled electrical pulses. Bio ultra-lift repairs, regenerates, heals, firms and lifts your skin! Energy within the skin is increased by up to 500%, intra-cellular electrolytes are restored, micro-circulation is increased and the underlying facial muscles are strengthened and firmed. The result is lifted, rejuvenated and firmer looking skin.

**Power Peel** **\$145**

*(SKIN MUST BE PREPPED WITH SUPPORTIVE HOME CARE)*

Our most advanced peeling treatment; two of our Corrective Facial Peels are layered to rectify multiple skin concerns. A treatment prescribed by your therapist.

**Intracutaneous Oxygen Facial** **\$130**

This thirst-quenching facial is for dull and dehydrated skin. Refine and resurface your skin with natural fruit acids; even your complexion with multivitamins and hydrate and nourish with the finishing hydration infusion.

**Teen Facial** **\$99**

An extraction treatment best suited to a heavily congested or acneic skin. An extraction-based facial which is boosted by acne-fighting blue light LED to reduce redness, inflammation and bacterial breakout. The peel is applied under steam for a thorough exfoliation and to loosen impurities for easy extraction.

**LED Phototherapy**

LED is used to treat pigmented age spots, inflammation and redness, fine lines and wrinkles, acne and breakouts, rosacea, psoriasis, and cold sores.

**LED Stand Alone Treatment** **\$60**

Includes cleanse, exfoliation, 20-minute LED treatment, corrective serum and SPF application

**LED Add-On Treatment** **\$35**

Can be added on to any complete spa facial, corrective facial treatment, advanced skin treatment or teenage treatment.

**IPL Skin Rejuvenation / \$299 Spot Treatment from / \$50**

*(SKIN MUST BE PREPPED WITH SUPPORTIVE HOME CARE)*

If your skin has been on more than a few swings around the sun, perhaps it's time to wind the clock back. Intense Pulsed Light (IPL) Skin Rejuvenation uses the power of light to reverse signs of ageing. You can reduce or even remove blemishes like pigmentation, broken capillaries, sun damage, age spots and redness.
